

FOOL ME TWICE, SHAME ON ME!

When the Chinese Communists silenced the heavy guns of a British cruiser on the Yangtze River, and immobilized her gun turrets, militarily minded men promptly asked: "How Come?"

By all the rules of the game, war ships of this type should be completely safe from nearly all land-based gunfire other than heavy artillery. Ordinary field equipment, even from reasonably close range, should bother her no more than mosquitoes would bother a hunter.

What these experts learned, when they dug into the facts, is something which should deeply interest all Americans at a time when we are trying to decide whether to turn more than a billion dollars worth of our military equipment over to a group of unreliable European nations under the new Atlantic Pact.

They found that it was American-made guns in the hands of these Chinese Communists which turned the British warships back, severely damaged.

Specifically, what the Communists used to hit the jack-pot of victory over England's prized "boom boats" was a handy little gadget known as an anti-tank gun. This is a light, easily movable weapon, which fires a sharp-pointed, deep penetrating shell at a velocity which gives it a nearly flat trajectory at intermediate ranges.

As a good many soldiers are aware, it's almost as easy to aim as an ordinary rifle, and it cuts through ordinary armor-plate like a fork through cheese. In the recent World War, this gun was one of Uncle Sam's great equalizers when American infantry ran unexpectedly into heavy-tank opposition.

It was, of course, only by accident that the British war-vessels got themselves into position where this special type of weapon could be used effectively against them.

Interesting as these details are, however, they are not the point which should strike concern into the heart of the American people.

That point is the fact that American-made arms are at this very moment being used to strike down two friends of the United States. They were used to deal a heavy blow to British prestige in the far East; and they will be used in coming days and weeks to cut Nationalist China, our war-time ally, into ribbons.

If we arm Europe with the last word in special devices, how soon are they going to be turned against our friends of ours? FOR THAT MATTER, HOW SOON MAY THEY BE TURNED AGAINST US?

The question of just how the Communists came into possession of these American anti-tank guns is one that has its angles. It has been the Nationalist Government that we have dealt with, on the top of the table at least, ever since back in the days when Japan invaded China prior to the World War.

We have spent billions of dollars supposedly strengthening the Nationalist Government there—built the Burma Road for that purpose, ran an earlier "air-lift" across the Himalayan Mountains, counted China in as one of the original "Big Four" who were to run the world under the United Nations.

How come that valuable American-made weapons are in the hands of the enemies of the Nationalist Government?

This question has not been answered. The fact that the Communists had the American weapons has been known for some time.

Even before the recent episode involving the British Navy, for example, Columnist George Sokolosky was demanding that Congress investigate "possession of American arms by Asiatic Communists and how they got them."

If this were the only instance in recent history when Americans have put into the hands of their own enemies, or of the

A former resident of New Britain, Mrs. Irene Ralsner Kitchin, who lost most of her sight due to an injury suffered while with the U. S. Army Nurse Corps, will graduate next month from New Mexico State Teachers College, Silver City, N. M.

Mrs. Kitchin was graduated from Grand View Hospital School of Nursing, Sellersville. The rehabilitation of Mrs. Kitchin has been accomplished with the help of various "Aids for the Blind" provided by the Veterans' Administration. Mrs. Kitchin has also given these aids credit for having kept her name on the school's honor roll.

Mrs. Kitchin, who next month will receive her B. S. degree, is a member of the Sigma Tau Delta, a national professional literary fraternity.

The University of Washington in Seattle has accepted Mrs. Kitchin for graduate work on a master's degree in June in preparation for teaching and guidance of the handicapped.

SPECIAL MEETING

FALLSINGTON, Apr. 28 — A special meeting of the Falls township alumni will be held on Tuesday evening, May 3rd, in the Pennsylvania high school here. This meeting is called for the purpose of making arrangements for the annual banquet.

Prizes will be awarded on Sunday to top contenders in the club tournament for controlled stunt models, arranged by Bristol Aeromodelers. Senior members are pleased with the way this contest has made several of the junior members expert enough to compete in large contests.

Total club membership has dropped to a new low since early 1948. It has 31 members of 16 years of age or under and only five over 16. This slump in club interest and membership is attributed, by members, to a lack of active sponsorship and too few senior members to plan and follow through the various activities that are essential to maintain a club of this type.

Powered models of original design were flown successfully at last Sunday's informal flying session by Thomas Pearson, Gordon Pearson, Warren McQuaid, Perry Carter, James Van Sant, Jr., Clarence Wells, Thomas Spitzo and Gerald Epp. Gerald Epp got his model aloft on what was his first attempt at control line flying. Other members' flew conventional design models.

At next week's meeting, May 4th, preparations will be made for the competition to be held at Linden, N. J. A briefing will be given, by veteran model competitors, to the inexperienced members who plan to compete. Over \$500 in prizes will be given, divided into 12 events.

PENNSBURY SENIORS ARE GUESTS OF CLUB

C. Burnley White, Bensalem Rotarian, Speaks At Kiwanis Meeting

QUIZ IS A FEATURE

PENNDLE, Apr. 28 — Bucks County Lincoln Highway Kiwanis Club played host to a group of senior girls and boys from Pennsbury high school at its dinner meeting Tuesday evening, at the Royal Gardens, Bensalem township. The guest speaker was C. Burnley White of Bensalem Rotary Club.

President Paul Sauerby introduced Mr. White to the senior students from Pennsbury high and to other guests and Kiwanians.

Mr. White gave a very excellent talk with a moral. He told the seniors that they are about to graduate and that they will face many difficult problems. He advised them that if they start something, not to change their course, but to continue what they set out to do. He told them to set their sights high and to have great vision. The speaker reminded that life is a great struggle and "if you are not struggling you are not in the battle. One must travel a hard road with visions set high before him in order to succeed."

William Ingram, baseball coach at Pennsbury high, made a few remarks concerning the Pennsbury school system. He explained the consolidation of three schools, namely Yardley, Lower Makefield and Falls township, into the Pennsbury system. He said "these seniors will be our community leaders of tomorrow and possible club members."

Russian troops still blocked the road between Berlin and the Western zones of Germany.

The ordinance has been published almost in complete detail by the Courier as a matter of public interest, and the residents have in this way been able to make themselves familiar with the provisions of the proposed law.

MAN WITH THE HOE

If Edwin Markham were alive today, he would have the enjoyment and the satisfaction of seeing the Edwin Markham Memorial Society commemorate the fiftieth anniversary of his great poem, "The Man With the Hoe."

There is passion in it, and there are questions. Looking at brutalized toilers, symbolized by Miller's painting, Markham cried that the "masters, lords and rulers in all lands" could not wash their hands of responsibility for the Man With the Hoe.

How, he asked, did they propose to undo the wrong they had done him? And what would happen in the "whirlwinds of rebellion" when he rose to claim his birthright?

"How will it be with kingdoms and with kings—
With those who shaped him
to the thing he is—
When this dumb Terror shall
rise to judge the world
After the silence of the centuries?"

The answers to those questions are clearer now than they were when Markham wrote. The "masters, lords and rulers" have made the brutalized worker obsolescent in some countries by raising the standard of living. And in large areas like Russia and China we are seeing "this dumb Terror rise to judge the world."

The sight is as frightening as Markham imagined it would be. In its excesses, the Man With the Hoe is coming under the sway of new "masters, lords and rulers" who speak in his name and exploit him as ruthlessly as ever.

So Markham's implied moral stands. Unless those who have the power prevent the brutalization of the working man, he will rise against them in whirlwinds of rebellion. Conversely, if they use their power to make a better life possible to him, he will be neither dangerous nor brutish. American capitalism has taken that course, and because it did so this nation has escaped the misery and degradation of large areas of the world.

2 From Lahaska Lodged In Jail; Intoxication Charge

FLEMINGTON, N. J., Apr. 28.—Albert Worman, 45, and his wife, Esther, 52, of Lahaska, Pa., were lodged in the county prison here this week, after pleading guilty to charges of intoxication. They were unable to pay fines and costs of prosecution. The two are said to have driven around in their truck with a dead man sitting in the seat between them.

District Court Judge Wesley Lance sentenced Worman to pay a fine of \$200 and costs of prosecution, amounting to \$3.50, on a drunken driving charge, and a \$50 fine on a charge of driving without an operator's license.

Worman, who couldn't pay the \$250 fines and costs, was sentenced to serve 30 days in the county prison on the drunken driving charge and 25 days on the charge for driving without a license.

His wife, Esther, who pleaded guilty to being drunk and disorderly and was fined \$19 and costs of \$3.50, was sentenced to serve five days in prison in default of payment.

The couple were arrested by a New Jersey State Policeman when James P. Dyer, of Wycombe, a carpenter and owner of the truck, was found seated between them and was dead.

Trooper Earl Kane halted the small, stake body truck Sunday night, on Route 29, after motorists complained it was forcing other cars off the road. Worman was driving and Dyer was sitting in the middle as though in a stupor.

When the State Trooper ordered the trio out, Dyer didn't move. Dr. William McCorkle, Hunterdon county physician, said Dyer apparently died from a heart attack.

The state policeman said the three had been visiting a number of taprooms in this area.

es of American friends, the fact would not have such tremendous significance.

at over and again, we have furnished the weapons with freedom has been stifled.

the case of Russia, she has been using Uncle Sam's gifts for the purposes of her aggressions and intimidations since she was awarded with such generous stores of it, under Lease.

at there are numerous other instances.

hen the Dutch, right after the War ended, put down independence movements in some of their possessions in the Far East there seems no question that they did so with weapons supplied by the American people.

hen Churchill sent British Tommies into Greece, about the time, to stamp out what he interpreted as "rebellion", it is widely reported that the British used American-made guns, and planes for this purpose.

couple of years ago, in Italy, the Communists were dead as having massed a great deal of "surplus" American equipment for the purposes of an insurrection and overthrow of government. Specifically, reporters asserted that these units had picked up for a song, apparently with inside advance on some Americans' part, a fleet of heavy dump trucks easily converted into mobile machine-gun units and for war uses.

o come back to the present, another Columnist, J. M. M. Jr., recently described the threat of uprisings against French and French control of Indo-China, Malaya, and other Eastern territories. In this article he asserted that Malayan communists, "ironically enough, were mostly armed by British shuttles during the war against Japan."

f this is the case, it is a moral certainty that some of the arms, at all, which the British parachuted in, and which are now a threat to the peace of the world, were American-made.

Guns have no loyalty, bullets know no friends.

s it not time for the American people to stop, look and before dumping another lot of war-equipment into the untrollable hands of these "new friends" who are banded together in the highly-debatable Atlantic Pact?

There is a Chinese proverb very much to the point. It says: Fool me once, shame on you; fool me twice, shame on me.

Faith Clarke's SHOPPING TIPS FOR BUDGETEERS

CUSTOM-MADE SALE! Slip-covers tailored by Snellenburgs fit like a smooth, easy glove. They're form-fitting. My own living room bears witness to it. Upholstery Dept.'s fine work, now—but for only a few days—can actually have a \$94.95 job for only \$74.95. Hurry to get our orders in! The price includes (fa, two chairs, five cushions. The wood material is beautiful—optical foliage, bouquets, traditional prints, and harmonizing rips to break the monotony of having all pieces look alike. You may have the covers finished with cord welting, pleated skirts, rust-roof snaps. Don't wait—select our patterns and ask for a Snellenburg fitter to measure your furniture pronto! (4th fl.)

NEW CARD CRAZE. Tired of bridge, weary of gin rummy? Well, just try "Canasta"! It's sweeping the country. It is said to have come from our American cousins south of the border. The game rule book, together with two decks of fine cards for playing the game, are boxed and waiting for you in Snellenburgs—in the Stationery Dept. The game makes a nice Mother's Day gift for card-playing mothers. It costs \$2. Some card players prophesy that "Canasta" will soon replace both gin and bridge! (1st fl.)

DRESS LENGTHS for sewing mothers, on Mother's Day, make welcomed gifts. The Dress Goods Dept. of Snellenburgs now has some of that famous "Chulla" crepe. Polka dot patterns come in various combinations of colors. There's also a selection of "Chulla" all-over prints. "Chulla" is \$1.59 a yard, 39 ins. wide. If you're sewing mothers yourselves, here's just the right investment for any Mother's Day checks! This department is noted for always having one of the largest stocks of materials in town. (2nd fl.)

BUY HER A NEW umbrella for Mother's Day—and be sure you don't borrow it later! Or perhaps you are "mother" herself. Then you'd better drop a hint to the offering stop at the Snellenburg Umbrella Dept. to see some unusual 16-rib beauties at \$5.98. They are made of strong rayon, in assorted plaids and colors, have smart plastic handles. See, too, the grand folding ones that can even be popped into large handbags! These cost \$9.98. (1st fl.)

TIME FOR DENIMS! And what a collection Snellenburgs Sports-wear Dept. has—slacks, overalls, dungarees, pedal pushers, skirts, bras, jackets, etc., in that heavenly faded blue. And prices are so small—\$1.98 to \$5.98. All ages—daughters, mothers, even grandmothers—are wearing these nicely cut Snellenburg denims. They're being worn casually, or for gardening or housework. See them. (2nd fl.)

KEEP IT CUT—that lawn, if you would save labor. And have a quick, slick mower, one you can push easily when a man's too indolent. The Snellenburg Housewares Dept. has just the thing—the "Great American Pennsylvania." It runs easily, has rubber tires, 5 extra-wide strong steel blades. Priced as follows: 15, 17 and 19 in. sizes sell, respectively, at \$28.20, \$30.00 and \$32.95. If you wish, you can buy on deferred payment plan with small down payment and balance on small carrying charge. (3rd fl.)

ALL MOTHERS will enjoy a book which will help them to perform with a sense of humor their seemingly never-ending tasks. Just such a book is "Cheaper by the Dozen," by the Gilbreths—two of the wonderful family of twelve children about which the book was written. Not since "Life With Father" has there been any family book so exciting. Indeed, someone has described it as "Life with what a father!" Father, you see, was an efficiency expert. Mother? With her, everything father did was wonderful! I've asked the Book Dept. at Snellenburgs to have copies for you Budgeteers—especially for Mother's Day giving. Why not order them now, at \$3 each. (1st fl.)

A FAMILY CUSTOM that is too good to succumb to modern thoughtlessness is that of buying family candy for the week-end as surely as one purchases groceries. Snellenburgs Candy Depts. specialize in family candies, very delicious ones at reasonable prices. For example, there are finest marshmallows, rolled in toasted coconut, at 60¢ a pound; marshmallows hand-dipped in dark, bitersweet chocolate, at 85¢ a pound. Everyone likes marshmallows! There are many other kinds of candy. Next week I'll tell you about the grand Snellenburg candies there will be for Mother's Day gifting. (1st fl.)

MAN WITH THE HOE
If Edwin Markham were alive
today, he would have the enjoy-
ment and the satisfaction of seeing
the Edwin Markham Memorial
Society commemorate the fiftieth
anniversary of his great poem,
"The Man With the Hoe."
There is passion in it, and
there are questions. Looking at
brutalized toilers, symbolized by
Millet's painting, Markham cried
that the "masters, lords and rulers
in all lands" could not wash their
hands of responsibility for the
Man With the Hoe.
How, he asked, did they pro-
pose to undo the wrong they had
done him? And what would hap-
pen in the "whirlwinds of rebel-
lion" when he rose to claim his
birthright?
"How will it be with kingdoms
and with kings—
With those who shaped him
to the thing he is—
When this dumb Terror shall
rise to judge the world
After the silence of the cen-
turies?"
The answers to those questions
are clearer now than they were
when Markham wrote. The "mas-
ters, lords and rulers" have made
the brutalized worker obsolescent
in some countries by raising the
standard of living. And in large
areas like Russia and China we
are seeing "this dumb Terror rise
to judge the world."
The sight is as frightening as
Markham imagined it would be.
In his excesses, the Man With
the Hoe is coming under the sway
of new "masters, lords and rulers"
who speak in his name and ex-
ploit him as ruthlessly as ever.
So Markham's implied moral
stands. Unless those who have
the power prevent the brutaliza-
tion of the working man, he will
rise against them in whirlwinds
of rebellion. Conversely, if they
use their power to make a better life
possible to him, he will be neither
dangerous nor brutish. American
capitalism has taken that course,
and because it did so this nation
has escaped the misery and de-
gradation of large areas of the
world.

Chicago man named Napoleon
Bonaparte is charged with draw-
ing unemployment compensation
while working. Many employers
continue to contend their em-
ployees should be drawing unem-
ployment compensation instead of
wages.
Government will send Japan
83,900 bales of cotton. It will be
more difficult to shoot that back
at us than it was the scrap metal.
With Easter past, prospective
automobile buyers are wondering
whether worthwhile price cuts can
be far in the future.
Contentions that Hitler is hid-
ing somewhere and that Roosevelt
never died are seldom heard now.
They have ceased to be news.
The Eighty-first Congress is
said to be running behind sched-
ule. But not in doling out tax-
payers' money.

was the Governor's dinner at which
the Hon. James H. Duff, Governor
of the State, praised the Pennsyl-
vania volunteers for their expressed
aim not only to reach their quotas
but to go over the top.
The quota for the Commonwealth
is \$82,600,000. In order to make the
purchase of bonds easy for every-
one, an efficient system is being
set up in each area, headed by local
chairmen. The slogan for the drive
is "Don't Trust to Luck—Buy U. S.
Savings Bonds."
Governor Duff welcomed the
representation from Bucks County,
one of the largest present at the
Harrisburg meeting with a state-
ment of appreciation, and said
he was happy to be photographed
with them.
As a pre-campaign statement the
Bucks County U. S. Bond Minutemen
reminds every citizen of the United
States that he has a job to do, that
here is an opportunity to help your
country in a critical time. "Save
with bonds," they say, and ask full
cooperation in the coming Oppor-
tunity Drive.

A stray bullet shattered the rear
window of the automobile owned
and operated by Vincent McCarty,
of Bucksville, Sunday, while driving
in the vicinity of Hawatha pool, a
mile west of Hellertown.
A seven-year-old daughter of Mc-
Cartey received cuts of the face
when hit by broken glass, McCarty
reported the incident to the Hel-
lertown police, who notified the
State Police. According to McCar-
tey, a youth with a rifle fired at a
target across the road at about
the time the vehicle was passing by.

Among the nine persons fined
when given hearings before Justice
of the Peace Donald E. DeLacey,
New Hope, last week, were three
New Hope residents, who were
charged by George B. Mathews, Ard-
more, a State dog law investigator,
with having failed to have their
dogs properly licensed for this year.
Each was fined \$5 and costs amount-
ing to \$3.50.

ties should act at once to remove
all such hazards," says the chief.
The fire loss in Bristol during
the first three months of this year
was at a new low, totalling only \$35.
According to Clifford Hagerman,
fire chief, there were 84 calls re-
ceived for the services of the fire-
men with 42, or half of them, com-
ing from out-of-town. There were
four false alarms and 21 calls were
for grass fires.
The firemen report two property
fires, two oil burner fires, two dump
fires and one motor fire. There were
calls to extinguish fires in one fuse
box, three lumber piles, one rub-
bish pile, gas range, automobile
fires. Two calls were for special
services.

**2 From Lahaska Lodged In
Jail; Intoxication Charge**
FLEMINGTON, N. J., Apr. 28 —
Albert Worman, 45, and his wife,
Esther, 52, of Lahaska, Pa., were
lodged in the county prison here
this week, after pleading guilty to
charges of intoxication. They were
unable to pay fines and costs of
prosecution. The two are said to
have driven around in their truck
with a dead man sitting on the seat
between them.
District Court Judge Wesley
Lance sentenced Worman to pay a
fine of \$200 and costs of prosecution,
amounting to \$3.50, on a drunken
driving charge, and a \$50 fine on a
charge of driving without an op-
erator's license.
Worman, who couldn't pay the
\$250 fines and costs, was sentenced
to serve 30 days in the county prison
on the drunken driving charge and
25 days on the charge for driving
without a license.
His wife, Esther, who pleaded
guilty to being drunk and disorderly
and was fined \$10 and costs of
\$3.50, was sentenced to serve five
days in prison in default of pay-
ment.
The couple were arrested by a
New Jersey State Policeman when
James P. Dyer, of Wycombe, a car-
penter and owner of the truck, was
found seated between them and was
dead.
Trooper Earl Kane halted the
small, stake body truck Sunday
night, on Route 29, after motorists
complained it was forcing other
cars off the road. Worman was driv-
ing and Dyer was sitting in the
middle as though in a stupor.
When the State Trooper ordered
the trio out, Dyer didn't move. Dr.
William McCorkle, Hunterdon coun-
ty physician, said Dyer apparently
died from a heart attack.
The state policeman said the
three had been visiting a number
of taprooms in this area.

Fool Me Twice, Shame On Me!

Continued from Page One

enemies of American friends, the fact would not have such tremendous significance.

But over and again, we have furnished the weapons with which freedom has been stifled.

In the case of Russia, she has been using Uncle Sam's gift-munitions for the purposes of her aggressions and intimidations ever since she was awarded with such generous stores of it, under Lend-Lease.

But there are numerous other instances.

When the Dutch, right after the War ended, put down independence movements in some of their possessions in the Far East, there seems no question that they did so with weapons furnished by the American people.

When Churchill sent British Tommies into Greece, about the same time, to stamp out what he interpreted as "rebellion", it was widely reported that the British used American-made guns, tanks and planes for this purpose.

A couple of years ago, in Italy, the Communists were described as having massed a great deal of "surplus" American war equipment for the purposes of an insurrection and overthrow of the government. Specifically, reporters asserted that these communists had picked up for a song, apparently with inside connivance on some Americans' part, a fleet of heavy dump trucks easily converted into mobile machine-gun units and for other war uses.

To come back to the present, another Columnist, J. M. Roberts, Jr., recently described the threat of uprisings against British and French control of Indo-China, Malaya, and other Far Eastern territories. In this article he asserted that Malayan Communists, "ironically enough, were mostly armed by British parachutists during the war against Japan."

If this is the case, it is a moral certainty that some of the arms, if not all, which the British parachuted in, and which are now a threat to the peace of the world, were American-made.

Guns have no loyalty, bullets know no friends.

Is it not time for the American people to stop, look and listen before dumping another lot of war-equipment into the uncontrollable hands of these "new friends" who are banded together in the highly-debatable Atlantic Pact?

There is a Chinese proverb very much to the point. It says: "Fool me once, shame on you; fool me twice, shame on me."

Faith Clarke's SHOPPING TIPS FOR BUDGETEERS

CUSTOM-MADE SALE! Slip-covers tailored by Snellenburgs fit like a smooth, easy glove. They're form-fitting. My own living room bears witness to this Upholstery Dept.'s fine work. Now — but for only a few days — you can actually have a \$94.95 job done for only \$74.95. Hurry to get your orders in! The price includes sofa, two chairs, five cushions. The good materials are beautiful — tropical foliage, bouquets, traditional prints, and harmonizing stripes to break the monotony of having all pieces look alike. You may have the covers finished with cord welting, pleated skirts, rust-proof snaps. Don't wait — select your patterns and ask for a Snellenburg fitter to measure your furniture pronto! (4th fl.)

NEW CARD CRAZE. Tired of bridge, weary of gin rummy? Well, just try "Canasta"! It's sweeping the country. It is said to have come from our American cousins south of the border. The game rule book, together with two decks of fine cards for playing the game, are boxed and waiting for you in Snellenburgs — in the Stationery Dept. The game makes a nice Mother's Day gift for card-playing mothers. It costs \$2. Some card players prophesy that "Canasta" will soon replace both gin and bridge! (1st fl.)

DRESS LENGTHS for sewing mothers, on Mother's Day, make welcome gifts. The Dress Goods Dept. of Snellenburgs now has some of that famous "Chulla" crepe. Polka dot patterns come in various combinations of colors. There's also a selection of "Chulla" all-over prints. "Chulla" is \$1.59 a yard, 39 ins. wide. If you're sewing mothers yourselves, here's just the right investment for any Mother's Day check! This department is noted for always having one of the largest stocks of materials in town. (2nd fl.)

BUY HER a new umbrella for Mother's Day — and be sure you don't borrow it later! Or perhaps you are "mother" herself. Then you'd better drop a hint to the Snellenburg Umbrella Dept. to see some unusual 16-rib beauties at \$5.98. They are made of strong rayon, in assorted plaids and colors, have smart plastic handles. See, too, the grand folding ones that can even be popped into large handbags! These cost \$9.98. (1st fl.)

P.S. Do send clippings with mail orders when you can! Phone free (5c, 10c, and 15c out-of-town calls only). Penna.—ENT. 10160; Jersey—WX-1150. Shop located Market, 11th to 12th Sts., Phila.—through to 1125-29 Chestnut St. Be hearin' from you!

Faithfully, FAITH.

Named President Of Penna. Salt Co.

Continued from Page One

Salt Manufacturing Company of Washington, wholly-owned West Coast subsidiary, were elected to two new directorships created at a recent meeting of the board. Mr. Shanahan also is a vice-president of the parent company.

A native Philadelphian—as is his predecessor—Mr. Beltz served with the 79th Division during World War I. For 12 years he was associated with John T. Lewis & Bros. Co. before joining Pennsalt in December 1936 as sales manager. He was selected vice-president in charge of sales in 1942.

A member of the board of directors of the Fidelity-Philadelphia Trust Company, Mr. Beltz also is a trustee of the Delaware County Hospital; vice-president of the School Board of Springfield Township, Delaware County; and a member of the Sales Managers Association, the Midway Club, the Chemists Club of New York and the Chemical Club of Philadelphia.

Mr. Beale first became associated with Pennsalt in September 1923 when he was elected to the board of directors while serving as vice-president of John T. Lewis & Bros. Co. Five years later he was elected president of Pennsalt, and it was under his leadership that the company made its most spectacular progress.

In a year-end "Report on the State of the Company," issued last December, Mr. Beale reported that sales for 1948 were the largest in the company's history—approximately 255 per cent above 1929 sales figures. Profits in 1948 were up 71 per cent over the same period, while the number of employees showed an increase of 97 per cent and their wages and salaries 345 per cent. Expenditures for research and development by Pennsalt in 1948 exceeded those of 1929 by 1475 per cent. Total company assets increased 144 per cent.

Mr. Drake joined the company in 1934 to take a two-year student training course. In 1936 he became sales service manager and three years later was named manager of the Pennsalt Cleaners Division. He became manager of sales in 1943 and was named assistant vice-president, sales, in 1947.

Mr. Mitchell became a technical service engineer for Pennsalt in 1936. Later he was named assistant to the works manager at the company's Philadelphia office, and be-

came plant superintendent at Wyandotte, Mich., in January 1945. Three years later he was made assistant vice-president, manufacturing.

The retiring vice-president, Mr. Hardcastle, is the oldest Pennsalt officer in point of service. Beginning as a draftsman in the engineering department at Wyandotte in 1909, Mr. Hardcastle became supervisor of electrolytic operations there a year later, and in 1915 was made superintendent at Wyandotte. In 1928 he was elected vice-president, remaining in Wyandotte until 1932, when he moved to the executive offices here. He became a director of the company in 1948.

Next year Pennsalt plans to mark its century of progress from a modest operation begun in a small plant at Natrona, Pa., to its present status as one of the leaders in the chemical field with eight plants located at Natrona, Easton and Cornwall Heights, Pa.; Wyandotte, Mich.; Tacoma, Wash.; Portland, Ore.; Bryan, Texas, and Calvert City, Ky.

Since 1863 Pennsalt has maintained an unbroken quarterly dividend record and is the only manufacturing company in the United States listed on the New York Stock Exchange which can point to this achievement.

and that the Court's order will provide for a mental or psychiatric examination for the defendant.

The defendant appeared in court but took no part in the proceedings. She was accompanied by Deputy Sheriff's Pearl H. Smith and John Melvin.

Declaring that he didn't understand how often and when he was to write to Probation Officer Horace E. Gwinner, a Bristol Negro Norman H. Davis, 21, 703 Clymer st., assured President Judge Keller that he will comply with probation demands in the future.

The defendant, who was sentenced March 25 and released on parole April 24, pleaded guilty to stealing toy cash registers and other toys from Kem-Line Products Co.

Following his parole, he failed to contact Bucks County Probation authorities and he was committed to prison for violation of his probation.

"He was a good man while he was in prison and he painted all the time he was there," said Probation Officer Gwinner, who described Davis' conduct as excellent. "I know this will never happen again," said Davis.

"MOTO-MOWER"

Why push a hand-mower when you can drive a "Moto-Mower"? ... a quality power-mower for thirty years ... sizes 20" to 71" ... the "Moto-Boy" cuts a swath of 20" up to 1 1/2 acres per day, the other sizes in proportion ... a "MOTO-MOWER" is worth insisting upon ...

FINE HURLING BY WHITFIELD WINS FOR BENSALEM

NEWTOWN, Apr. 28.—Fine relief hurling by Bob Whitfield and a two-run rally in the final frame gave Bensalem Township its first win of the Lower Bucks County League and third of the season yesterday afternoon. The Owls nestled out "Sags" Sagolla's Council Rock team, 7-6.

Whitfield was called into the fracas in the first inning when four singles and an error plus another hit by Allen sent Joe Miklatitis to the showers. Before the canto was over, five Council Rock runs crossed the plate.

Whitfield performed excellently after relieving Miklatitis. He gave up but two hits, one a single by Phil Flatch and the other a home run from the bat of Bob Ettenger in the last half of the seventh.

The count was deadlocked at 5-5 as Coach Marlon VanHorn's contingent went into their part of the last inning. Bob King started the rally with a single. He was wild pitched to second and scored when Titus bobbled Bader's grounder. Bader went to second on the play and scored on Frank Cantwell's hit.

Cantwell, Joe Graziosa and "Ed" Oliver had two hits each for Bensalem. Oliver, the first batter of the game, pounded Teschner for a three-bagger being out at the plate.

Ettenger had another hit besides his home run while Flatch also had two hits.

A TRIBUTE TO AMERICAN MOTHERS

Mother's Day has become a traditional American institution. It is always the second Sunday in May—this year, May 8th. Only in America will you find a million and more queens on this very special day in May, each with a place of honor, and her adoring subjects around her, or thinking of her if they are away from home.

American women hold a place in life that is unique in even this enlightened day, and the honor and respect granted them extends particularly to the American mother, whose guidance and love has been such a large factor in making "good Americans."

Mother is close to everybody's heart, and this year there will again be a spontaneous recognition paid her. Editorials will be written about her, gifts will be lavished on her, poets will eulogize her, and each of us will find some way to express on this one day what is in his heart all year.

The idea of setting aside a special day to do mother honor was started by a school teacher, Mary Towles Sasseen of Henderson, Kentucky, who held a Mother's Day ceremony in the school house in May, 1887. But the idea didn't really catch on until Ann M. Jarvis, of Pennsylvania,

firmly decided to carry out the plans begun by Mary Sasseen to establish a national Mother's Day.

Finally her efforts were rewarded; in 1914 Congress agreed to declare the second Sunday in May of each year as Mother's Day. Miss Jarvis then added the final gracious touch by selecting a carnation, her own mother's favorite flower, as the floral symbol of the day.

Most of us will be delighted with the Greeting Cards especially designed and written for Mother's Day and so lovely that they express our sentiments perfectly. Designs are sweet or amusing bouquets of flowers scented with sachets, entwined by dainty bits of lace and ribbon, or mischievous little children getting into jams and being comforted by mother; there is a type of verse, sentimental, whimsical, endearing, for every mother in America and many will be sent to mothers abroad, as the bonds of filial affection always endure.

The leaders in the Greeting Card industry, Rust Craft Publishers, have been busy for months preparing these lovely "messengers of love" for you to send.

There is a large selection of Mother's Day Cards now awaiting you at your favorite card shop, but early shopping is advised, as they will disappear like hot-cakes—for everyone "remembers mother."

FOOL ME TWICE, SHAME ON ME!

When the Chinese Communists silenced the heavy guns of a British cruiser on the Yangtze River, and immobilized her gun turrets, militarily minded men promptly asked: "How Come?"

By all the rules of the game, war ships of this type should be completely safe from nearly all land-based gunfire other than heavy artillery. Ordinary field equipment, even from reasonably close range, should bother her no more than mosquitoes would bother a hunter.

What these experts learned, when they dug into the facts, is something which should deeply interest all Americans at a time when we are trying to decide whether to turn more than a billion dollars worth of our military equipment over to a group of unreliable European nations under the new Atlantic Pact.

They found that it was American-made guns in the hands of these Chinese Communists which turned the British warships back, severely damaged.

Specifically, what the Communists used to hit the jack-pot of victory over England's prized "boom boats" was a handy little gadget known as an anti-tank gun. This is a light, easily movable weapon, which fires a sharp-pointed, deep penetrating shell at a velocity which gives it a nearly flat trajectory at intermediate ranges.

As a good many soldiers are aware, it's almost as easy to aim as an ordinary rifle, and it cuts through ordinary armor-plate like a fork through cheese. In the recent World War, this gun was one of Uncle Sam's great equalizers when American infantry ran unexpectedly into heavy-tank opposition.

It was, of course, only by accident that the British war-vessels got themselves into position where this special type of weapon could be used effectively against them.

Interesting as these details are, however, they are not the point which should strike concern into the heart of the American people.

That point is the fact that American-made arms are at this very moment being used to strike down two friends of the United States. They were used to deal a heavy blow to British prestige in the far East; and they will be used in coming days and weeks to cut Nationalist China, our war-time ally, into ribbons.

If we arm Europe with the last word in special devices, how soon are they going to be turned against our friends of ours? FOR THAT MATTER, HOW SOON MAY THEY BE TURNED AGAINST US?

The question of just how the Communists came into possession of these American anti-tank guns is one that has its angles. It has been the Nationalist Government that we have dealt with, on the top of the table at least, ever since back in the days when Japan invaded China prior to the World War.

We have spent billions of dollars supposedly strengthening the Nationalist Government there—built the Burma Road for that purpose, ran an earlier "air-lift" across the Himalayan Mountains, counted China in as one of the original "Big Four" who were to run the world under the United Nations.

How come that valuable American-made weapons are in the hands of the enemies of the Nationalist Government?

This question has not been answered. The fact that the Communists had the American weapons has been known for some time.

Even before the recent episode involving the British Navy, for example, Columnist George Sokolosky was demanding that Congress investigate "possession of American arms by Asiatic Communists and how they got them."

If this were the only instance in recent history when Americans have put into the hands of their own enemies, or of the

PENNSBURY SENIORS ARE GUESTS OF CLUB

C. Burnley White, Bensalem Rotarian, Speaks At Kiwanis Meeting

QUIZ IS A FEATURE

PENNDDEL, Apr. 28 — Bucks County Lincoln Highway Kiwanis Club played host to a group of senior girls and boys from Pennsbury high school at its dinner meeting Tuesday evening, at the Royal Gardens, Bensalem township. The guest speaker was C. Burnley White of Bensalem Rotary Club.

President Paul Sauerby introduced Mr. White to the senior students from Pennsbury high and to other guests and Kiwanians.

Mr. White gave a very excellent talk with a moral. He told the seniors that they are about to graduate and that they will face many difficult problems. He advised them that if they start something, not to change their course, but to continue what they set out to do. He told them to set their sights high and to have great vision. The speaker reminded that life is a great struggle and "if you are not struggling you are not in the battle. One must travel a hard road with visions set high before him in order to succeed."

William Ingram, baseball coach at Pennsbury high, made a few remarks concerning the Pennsbury school system. He explained the consolidation of three schools, namely Yardley, Lower Makefield and Falls township, into the Pennsbury system. He said "these seniors will be our community leaders of tomorrow and possible club members."

A SUMMARY OF THE NEWS

Secretary of State Acheson appeared yesterday to the Senate to ratify the North Atlantic treaty as a safeguard of the liberties of the signatory nations and as a way of "waging peace." Appearing before the Senate Foreign Relations Committee, he also asked approval of the \$1,130,000,000 arms-aid program. Later he said a Senator voting to ratify the pact would be "less free" to deny arms.

The United States can best promote European recovery by stimulating trade among the European nations, former French Premier Renaud said. Export controls on 500 varied items were lifted by the Commerce Department.

Curtis E. Calder denied reports from a high official source that he had agreed to become Secretary of the Army.

A Senate subcommittee laid aside until next year President Truman's compulsory health insurance plan. The Administration agreed to accept five strengthening amendments to its labor bill, now nearing a vote in the House.

Czechoslovakia's military and air attaché in Washington resigned and asked for political asylum in this country.

Russia's permanent representative in the United Nations confirmed to Dr. Philip C. Jessup, United States spokesman, that the Soviet blockade of Berlin would be lifted if the Western counter-blockade was also raised and a Big Four conference was held. Dr. Jessup was believed to have asked the Russian, Jacob A. Malik, for details on Moscow's procedural ideas. United States officials in Germany felt that the blockade would be lifted in a few days. Russian troops still blocked the road between Berlin and the Western zones of Germany.

Henry A. Wallace saw in Russia's proposal proof that an agreement with Moscow was possible. He re-

Chief Hagerman made it plain that he is aware of certain conditions existing which should not exist and so he is announcing the inspection, in order to give time in which such conditions may be improved.

"Accumulations of rubbish, packing cartons, debris and trash in basements, on stairways, in store-rooms or attics must be removed," he says.

Chances of a serious fire fed upon such material cannot be taken. "The occupants of the proper-

MAN WITH THE HOE

If Edwin Markham were alive today, he would have the enjoyment and the satisfaction of seeing the Edwin Markham Memorial Society commemorate the fiftieth anniversary of his great poem, "The Man With the Hoe."
There is passion in it, and there are questions. Looking at brutalized toilers, symbolized by Millet's painting, Markham cried that the "masters, lords and rulers in all lands" could not wash their hands of responsibility for their Man With the Hoe.
How, he asked, did they propose to undo the wrong they had done him? And what would happen in the "whirlwinds of rebellion" when he rose to claim his birthright?

"How will it be with kingdoms and with kings—
With those who shaped him
to the thing he is—
When this dumb Terror shall
rise to judge the world
After the silence of the centuries?"
The answers to those questions are clearer now than they were when Markham wrote. The "masters, lords and rulers" have made the brutalized worker obsolescent in some countries by raising the standard of living. And in large areas like Russia and China we are seeing "this dumb Terror rise to judge the world."
The sight is as frightening as Markham imagined it would be. In its excesses, the Man With the Hoe is coming under the sway of new "masters, lords and rulers" who speak in his name and exploit him as ruthlessly as ever.
So Markham's implied moral stands. Unless those who have the power prevent the brutalization of the working man, he will rise against them in whirlwinds of rebellion. Conversely, if they use their power to make a better life possible to him, he will be neither dangerous nor brutish. American capitalism has taken that course, and because it did so this nation has escaped the misery and degradation of large areas of the world.

2 From Lahaska Lodged In Jail; Intoxication Charge

FLEMINGTON, N. J., Apr. 28—Albert Worman, 45, and his wife, Esther, 52, of Lahaska, Pa. were lodged in the county prison here this week, after pleading guilty to charges of intoxication. They were unable to pay fines and costs of prosecution. The two are said to have driven around in their truck with a dead man sitting on the seat between them.
District Court Judge Wesley Lance sentenced Worman to pay a fine of \$200 and costs of prosecution, amounting to \$3.50, on a drunken driving charge, and a \$50 fine on a charge of driving without an operator's license.
Worman, who couldn't pay the \$250 fines and costs, was sentenced to serve 30 days in the county prison on the drunken driving charge and 25 days on the charge for driving without a license.
His wife, Esther, who pleaded guilty to being drunk and disorderly and was fined \$10 and costs of \$3.50, was sentenced to serve five days in prison in default of payment.
The couple were arrested by a New Jersey State Policeman when James P. Dyer, of Wycombe, a carpenter and owner of the truck, was found seated between them and was dead.
Trooper Earl Kane halted the small, stake body truck Sunday night, on Route 29, after motorists complained it was forcing other cars off the road. Worman was driving and Dyer was sitting in the middle as though in a stupor.
When the State Trooper ordered the trio out, Dyer didn't move. Dr. William McCorkle, Hunterdon county physician, said Dyer apparently died from a heart attack.
The state policeman said the three had been visiting a number of taprooms in this area.

of American friends, the fact would not have such tremendous significance.

at over and again, we have furnished the weapons with freedom has been stifled.

the case of Russia, she has been using Uncle Sam's gifts for the purposes of her aggressions and intimidations since she was awarded with such generous stores of it, under Lease.

at there are numerous other instances. When the Dutch, right after the War ended, put down independence movements in some of their possessions in the Far East there seems no question that they did so with weaponry supplied by the American people.

When Churchill sent British Tommies into Greece, about the time, to stamp out what he interpreted as "rebellion", it is widely reported that the British used American-made guns, and planes for this purpose.

a couple of years ago, in Italy, the Communists were defeated as having massed a great deal of "surplus" American equipment for the purposes of an insurrection and overthrow of government. Specifically, reporters asserted that these Communists had picked up for a song, apparently with inside vantage on some Americans' part, a fleet of heavy dump trucks easily converted into mobile machine-gun units and for war uses.

to come back to the present, another Columnist, J. M. M. Jr., recently described the threat of uprisings against British and French control of Indo-China, Malaya, and other Eastern territories. In this article he asserted that Malayan Communists, "ironically enough, were mostly armed by British shuttles during the war against Japan."

If this is the case, it is a moral certainty that some of the arms, at all, which the British parachuted in, and which are now a threat to the peace of the world, were American-made.

Guns have no loyalty, bullets know no friends.

Is it not time for the American people to stop, look and before dumping another lot of war-equipment into the untrollable hands of these "new friends" who are banded together in the highly-debatable Atlantic Pact?

There is a Chinese proverb very much to the point. It says: Fool me once, shame on you; fool me twice, shame on me.

District Court Judge Wesley Lance sentenced Worman to pay a fine of \$200 and costs of prosecution, amounting to \$3.50, on a drunken driving charge, and a \$50 fine on a charge of driving without an operator's license.

Worman, who couldn't pay the \$250 fines and costs, was sentenced to serve 30 days in the county prison on the drunken driving charge and 25 days on the charge for driving without a license.

His wife, Esther, who pleaded guilty to being drunk and disorderly and was fined \$10 and costs of \$2.50, was sentenced to serve five days in prison in default of payment.

The couple were arrested by a New Jersey State Policeman when James P. Dyer, of Wycombe, a carpenter and owner of the truck, was found seated between them and was found.

Trooper Earl Kane halted the small, stake body truck Sunday night, on Route 29, after motorists complained it was forcing other cars off the road. Worman was driving and Dyer was sitting in the middle as though in a stupor.

When the State Trooper ordered the trio out, Dyer didn't move. Dr. William McCorkle, Hunterdon county physician, said Dyer apparently died from a heart attack.

The state policeman said the three had been visiting a number of taprooms in this area.

enemies of American friends, the fact would not have such tremendous significance.

But over and again, we have furnished the weapons with which freedom has been stifled.

In the case of Russia, she has been using Uncle Sam's gift-munitions for the purposes of her aggressions and intimidations ever since she was awarded with such generous stores of it, under Lend-Lease.

But there are numerous other instances. When the Dutch, right after the War ended, put down independence movements in some of their possessions in the Far East, there seems no question that they did so with weapons furnished by the American people.

When Churchill sent British Tommies into Greece, about the same time, to stamp out what he interpreted as "rebellion", it was widely reported that the British used American-made guns, tanks and planes for this purpose.

A couple of years ago, in Italy, the Communists were described as having massed a great deal of "surplus" American war equipment for the purposes of an insurrection and overthrow of the government. Specifically, reporters asserted that these communists had picked up for a song, apparently with inside connivance on some Americans' part, a fleet of heavy dump trucks easily converted into mobile machine-gun units and for other war uses.

To come back to the present, another Columnist, J. M. Roberts, Jr., recently described the threat of uprisings against British and French control of Indo-China, Malaya, and other Far Eastern territories. In this article he asserted that Malayan Communists, "ironically enough, were mostly armed by British parachutists during the war against Japan."

If this is the case, it is a moral certainty that some of the arms, if not all, which the British parachuted in, and which are now a threat to the peace of the world, were American-made.

Guns have no loyalty, bullets know no friends.

Is it not time for the American people to stop, look and listen before dumping another lot of war-equipment into the uncontrollable hands of these "new friends" who are banded together in the highly-debatable Atlantic Pact?

There is a Chinese proverb very much to the point. It says: "Fool me once, shame on you; fool me twice, shame on me."

Faith Clarke's SHOPPING TIPS FOR BUDGETEERS

CUSTOM-MADE SALE! Slip-covers tailored by Snellenburgs fit like a smooth, easy glove. They're form-fitting. My own living room bears witness to this Upholstery Dept.'s fine work. Now—but for only a few days—you can actually have a \$94.95 job done for only \$74.95. Hurry to get your orders in! The price includes sofa, two chairs, five cushions. The good materials are beautiful—tropical foliage, bouquets, traditional prints, and harmonizing stripes to break the monotony of having all pieces look alike. You may have the covers finished with cord welting, pleated skirts, rust-proof snaps. Don't wait—select your patterns and ask for a Snellenburg fitter to measure your furniture pronto! (4th fl.)

NEW CARD CRAZE. Tired of bridge, weary of gin rummy? Well, just try "Canasta"! It's sweeping the country. It is said to have come from our American cousins south of the border. The game rule book, together with two decks of fine cards for playing the game, are boxed and waiting for you in Snellenburgs—in the Stationery Dept. The game makes a fine Mother's Day gift for card-playing mothers. It costs \$2. Some card players prophesy that "Canasta" will soon replace both gin and bridge! (1st fl.)

DESS LENGTHS for sewing mothers, on Mother's Day, make welcomed gifts. The Dress Goods Dept. of Snellenburgs now has some of that famous "Chulla" crepe. Polka dot patterns come in various combinations of colors. There's also a selection of "Chulla" all-over prints. "Chulla" is \$1.59 a yard, 39 ins. wide. If you're sewing mothers yourselves, here's just the right investment for any Mother's Day checks! This department is noted for always having one of the largest stocks of materials in town. (2nd fl.)

BUY HER a new umbrella for Mother's Day—and be sure you don't borrow it later! Or perhaps you are "mother" herself. Then you'd better drop a hint to the Snellenburg Umbrella Dept. to see some unusual 16-rib beauties at \$5.98. They are made of strong rayon, in assorted plaids and colors, have smart plastic handles. See, too, the grand folding ones that can even be popped into large handbags! These cost \$9.98. (1st fl.)

P.S. Do send clippings with mail orders when you can! Phone free (5c, 10c, and 15c out-of-town calls only). Penna.—ENT. 10160; Jersey—WX-1150. Shop located Market, 11th to 12th Sts., Phila.—through to 1125-29 Chestnut St. Be hearin' from you!

TIME FOR DENIMS! And what a collection Snellenburgs Sports-wear Dept. has—slacks, overalls, dungarees, pedal pushers, skirts, bras, jackets, etc., in that heavenly faded blue. And prices are so small—\$1.98 to \$5.98. All ages—daughters, mothers, even grandmothers—are wearing these nicely cut Snellenburg denims. They're being worn casually, or for gardening or housework. See them. (2nd fl.)

KEEP IT CUT—that lawn, if you would save labor. And have a quick, slick mower, one you can push easily when a man's too indolent. The Snellenburg Housewares Dept. has just the thing—the "Great American" Pennsylvania. It runs easily, has rubber tires, 5 extra-wide strong steel blades. Priced as follows: 15, 17 and 19 in. sizes sell, respectively, at \$28.20, \$30.00 and \$32.95. If you wish, you can buy on deferred payment plan with small down payment and balance on small carrying charge. (3rd fl.)

ALL MOTHERS will enjoy a book which will help them to perform with a sense of humor their seemingly never-ending tasks. Just such a book is "Cheaper by the Dozen," by the Gibbreths—two of the wonderful family of twelve children about which the book was written. Not since "Life With Father" has there been any family book so exciting. Indeed, someone has described it as "life with what a father!" Father, you see, was an efficiency expert. Mother? With her, everything father did was wonderful! I've asked the Book Dept. at Snellenburgs to have copies for you Budgeteers—especially for Mother's Day giving. Why not order them now, at \$3 each. (1st fl.)

A FAMILY CUSTOM that is too good to succumb to modern thoughtlessness is that of buying family candy for the week-end as surely as one purchases groceries. Snellenburgs Candy Depts. specialize in family candies, very delicious ones at reasonable prices. For example, there are finest marshmallows, rolled in toasted coconut, at 69c a pound; marshmallows hand-dipped in dark, bitersweet chocolate, at 98c a pound. Everyone likes marshmallows! There are many other kinds of candy. Next week I'll tell you about the grand Snellenburg candies there will be for Mother's Day gifting. (1st fl.)

Named President Of Penna. Salt Co.

Continued from Page One
Salt Manufacturing Company of Washington, wholly owned West Coast subsidiary, were elected to two new directorships created at a recent meeting of the board. Mr. Shanahan also is a vice-president of the parent company.

A native Philadelphian—as is his predecessor—Mr. Beltzel served with the 79th Division during World War I. For 12 years he was associated with John T. Lewis & Bros. Co. before joining Pennsalt in December 1936 as sales manager. He was selected vice-president in charge of sales in 1942.

A member of the board of directors of the Fidelity-Philadelphia Trust Company, Mr. Beltzel also is a trustee of the Delaware County Hospital; vice-president of the School Board of Springfield Township, Delaware County; and a member of the Sales Managers Association, the Midway Club, the Chemists Club of New York and the Chemical Club of Philadelphia.

Mr. Beale first became associated with Pennsalt in September 1933 when he was elected to the board of directors while serving as vice-president of John T. Lewis & Bros. Co. Five years later he was elected president of Pennsalt, and it was under his leadership that the company made its most spectacular progress.

In a year-end "Report on the State of the Company," issued last December, Mr. Beale reported that sales for 1948 were the largest in the company's history—approximately 255 per cent above 1929 sales figures. Profits in 1948 were up 71 per cent over the same period, while the number of employees showed an increase of 97 per cent and their wages and salaries 345 per cent. Expenditures for research and development by Pennsalt in 1948 exceeded those of 1929 by 1475 per cent. Total company assets increased 144 per cent.

Mr. Drake joined the company in 1934 to take a two-year student training course. In 1936 he became sales service manager and three years later was named manager of the Pennsalt Cleaners Division. He became manager of sales in 1943 and was named assistant vice-president, sales, in 1947.

Mr. Mitchell became a technical service engineer for Pennsalt in 1936. Later he was named assistant to the works manager at the company's Philadelphia office, and be-

came plant superintendent at Wyandotte, Mich., in January 1945. Three years later he was made assistant vice-president, manufacturing.

The retiring vice-president, Mr. Hardcastle, is the oldest Pennsalt officer in point of service. Beginning as a draftsman in the engineering department at Wyandotte in 1909, Mr. Hardcastle became supervisor of electrolytic operations there a year later, and in 1915 was made superintendent at Wyandotte. In 1928 he was elected vice-president, remaining in Wyandotte until 1932, when he moved to the executive offices here. He became a director of the company in 1948.

Next year Pennsalt plans to mark its century of progress from a modest operation begun in a small plant at Natrona, Pa., to its present status as one of the leaders in the chemical field with eight plants located at Natrona, Easton and Cornwall Heights, Pa.; Wyandotte, Mich.; Tacoma, Wash.; Portland, Ore.; Bryan, Texas, and Calvert City, Ky.

Since 1933 Pennsalt has maintained an unbroken quarterly dividend record and is the only manufacturing company in the United States listed on the New York Stock Exchange which can point to this achievement.

FINE HURLING BY WHITFIELD WINS FOR BENSALEM

NEWTOWN, Apr. 28.—Fine relief hurling by Bob Whitfield and a two-run rally in the final frame gave Bensalem Township its first win of the Lower Bucks County League and third of the season yesterday afternoon. The Owls nosed out "Sags" Sagolia's Council Rock team, 7-6.

Whitfield was called into the fracas in the first inning when four singles and an error plus another hit by Allen sent Joe Miklatis to the showers. Before the canto was over, five Council Rock runs crossed the plate.

Whitfield performed excellently after relieving Miklatis. He gave up but two hits, one a single by Phil Flatch and the other a home run from the hat of Bob Ettenger in the last half of the seventh.

The count was deadlocked at 5-5 as Coach Marlon VanHorn's contingent went into their part of the last inning. Bob King started the rally with a single. He was wild pitched to second and scored when Tims hobbled Bader's grounder. Bader went to second on the play and scored on Frank Cantwell's hit.

Cantwell, Joe Graziosa and "Ed" Oliver had two hits each for Bensalem. Oliver, the first batter of the game, pounded Teschner for a three-bagger being out at the plate. Ettenger had another hit besides his home run while Flatch also had two hits.

and that the Court's order will provide for a mental or psychiatric examination for the defendant.

The defendant appeared in court but took no part in the proceedings. She was accompanied by Deputy Sheriff Pearl H. Smith and John Melvin.

Declaring that he didn't understand how often and when he was to write to Probation Officer Horace E. Gwinner, a Bristol Negro Norman H. Davis, 21, 793 Clymer st., assured President Judge Keller that he will comply with probation demands in the future.

The defendant, who was sentenced March 25 and released on parole April 24, pleaded guilty to stealing toy cash registers and other toys from Kem-Line Products Co.

Following his parole, he failed to contact Bucks County Probation authorities and he was committed to prison for violation of his probation.

"He was a good man while he was in prison and he painted all the time he was there," said Probation Officer Gwinner, who described Davis' conduct as excellent.

"I know this will never happen again," said Davis.

Guests Are Present At A Festive Dinner-Party

Guests on this occasion were Mrs. James Buckley, Cheltenham; and Mrs. Harlan Everett, Elkins Park, the latter being eastern vice-president. Among the members of the county salon attending was Mrs. Ernest Robinson, who arrived from her home at Wildwood, N. J., for the function.

Congratulations were telephoned to the state president, Mrs. Constance Sundry, who was at the same time being tendered a testimonial dinner at Blairsville.

Floral centerpiece was in the 8 'n' 40 colors, and flags were also used in the decorative plan. There was an exchange of "Pollyanna" gifts.

Group singing was indulged in, with Mrs. Walter Strouse, Tullytown, serving as the pianist.

The short business meeting was presided over by Mrs. Frank Buckley, Penndel. The sum of \$5 each was donated to the national 8 'n' 40 for tuberculosis work; to child welfare activity; and to the educational fund.

A "sunshine" shower was held for a member who is ill.

At the May meeting at Langhorne Legion Post country club home the hostesses will be Mrs. William Harding and Mrs. Warren Randall.

A TRIBUTE TO AMERICAN MOTHERS

Mother's Day has become a traditional American institution. It is always the second Sunday in May—this year, May 8th. Only in America will you find a million and more queens on this very special day in May, each with a place of honor, and her adoring subjects around her, or thinking of her if they are away from home.

American women hold a place in life that is unique in even this enlightened day, and the honor and respect granted them extends particularly to the American mother, whose guidance and love has been such a large factor in making "good Americans."

Mother is close to everybody's heart, and this year there will again be a spontaneous recognition paid her. Editorials will be written about her, gifts will be lavished on her, poets will eulogize her, and each of us will find some way to express on this one day what is in his heart all year.

The idea of setting aside a special day to do mother honor was started by a school teacher, Mary Towles Sasseen of Henderson, Kentucky, who held a Mother's Day ceremony in the school house in May, 1887. But the idea didn't really catch on until Ann M. Jarvis, of Pennsylvania,

firmly decided to carry out the plans begun by Mary Sasseen to establish a national Mother's Day.

Finally her efforts were rewarded; in 1914 Congress agreed to declare the second Sunday in May of each year as Mother's Day. Miss Jarvis then added the final gracious touch by selecting a carnation, her own mother's favorite flower, as the floral symbol of the day.

Most of us will be delighted with the Greeting Cards especially designed and written for Mother's Day and so lovely that they express our sentiments perfectly. Designs are sweet or amusing bouquets of flowers scented with sachets, entwined by dainty bits of lace and ribbon, or mischievous little children getting into jams and being comforted by mother; there is a type of verse, sentimental, whimsical, endearing, for every mother in America and many will be sent to mothers abroad, as the bonds of filial affection always endure.

The leaders in the Greeting Card industry, Rust Craft Publishers, have been busy for months preparing these lovely "messengers of love" for you to send.

There is a large selection of Mother's Day Cards now awaiting you at your favorite card shop, but early shopping is advised, as they will disappear like hot-cakes—for everyone "remembers mother."
